Dr. Felis
Sierra Leone is one of hundreds
of Cuban doctors who have supported the Ebola
response in West Africa. While working there, he contracted
Ebola himself. He survived and returned to Sierra Leone to further help
Ebola patients. "It's good to come back. I needed to come back," he explained.
"Ebola is a challenge that I must fight to the finish here to keep it from spreading to
the rest of the world." Sierra Leone's 35-year-old staff nurse, who on duty when Nepal
25 April 2015 earthquake struck, and continued treating patients. "I was on the third floor of the
hospital when the earthquake struck. I asked the patients to go under their beds. I know my people
need my services. I continue to be in the hospital." Every 27 minutes, a woman in Afghanistan dies from
complications due to pregnancy or birth. Sadia Hussaini was there the night her sister nearly bled to death
giving birth to her first child. Ever since, she has wanted to become a midwife. She is now one of 3,000 midwives
that have graduated in Afghanistan and that are helping reduce maternal mortality. At 24, she is in charge of provid-
ing pre and ante-natal care, family planning, health
education and deliveries. Having survived Eb-
ola, Sierra Leone nurse Rebecca Johnson is
not only returning to work to care for people
with Ebola but spreading the word that
Ebola can be beaten. "I want Ebola to
My country is drowning: no schools,
no hospitals, no electricity, no money."
"Being able to work with people
rationing gives me the energy to keep
working out," says Denise Assel, a
nurse. "After a long challenging and
thank you or a handshake keep me
do more." "It is always rewarding to
obtain Dr John Haskew. He is sup-
plying treating refugees and die-
ing is no better reward than seeing
helping people through early
ing the quality of clinical care pro-
in a refugee camp can be daunting:
one of only 17 midwives in Zaatari
mothers' anxieties, serving 100-200
have to support mothers during
care in extremely hard conditions,"
also includes consultations
methods, antenatal
care for women
childbearing
age.
